

FONDAZIONE  
PER LE  
NEUROSCIENZE  
**MASSIMO  
COLLICE**  
ONLUS

The Massimo Collice Foundation for Neurosciences announces the winner of the annual International prize of 10,000 euros for experimental or clinical research on cerebral vascular malformations.

The winner of 2011 award is Dr. Jorn Fierstra from Toronto with his works on Brain journal and Journal of Neursurgery – Pediatrics.

The award will be presented to the 2012 CNS anual meeting in Chicago, USA (06/10/2012 – 11/10/2012).

#### THE MISSION OF THE FOUNDATION

The Massimo Collice Onlus foundation was founded on April 1, 2011 by Rosa Borgia Collice in memory of her husband the illustrious Italian neurosurgeon.

The Foundation has both a scientific and clinical interest: to support avant-garde research by yearly awarding the most significant international research dedicated to brain vascular malformation; to support any project which will give help and relief to patients in addition to hospital daily routine.
